ORIGINAL

Dear members of the Arizona Corporation Commission:

I am a small business owner in Arizona. Due to this unbearable heat, I am forced to turn up my air conditioning—all to keep my shop cool. There is no doubt that lower AC temperatures are good for business, but they raise my payments through the roof.

In efforts to combat these costs, I have recently installed some energy-efficient devices into my business, and I believe they will make a difference with time.

In short, I am in full support of implementing the Energy Efficiency Standard in Arizona as it will bring positive results.

Best, /
